

Athertyn INSIDER

featuring

Mia and Frank Wesner

Mia and Frank Wesner loved the family home they had lived in for 31 years, but wanted the ease of single-level living. They also wanted to stay close to their large extended family. When they found Athertyn, they found a beautiful new home only 2 miles away, full of light and warmth, and a community of supportive neighbors.

continued

What made you decide to move to Athertyn?

Mia: We looked at a few places, but no other community felt as new and bright as Athertyn. I never tire of walking in the front entrance. It's beautiful.

Frank: The accessibility is great. I have Parkinson's and go to the fitness center here every day to keep myself dexterous. Working out every day is much easier because we're so close to the clubhouse and there are no steps. Going to Rock Steady Boxing isn't a problem, either — the elevator to the underground parking makes it simple.

Why did you choose the Clairemont model?

Mia: We wanted this home because of the light. The exposure on three sides makes it feel like a house — not a one-view apartment. I'm someone who is affected by the light and our previous home was full of it. The light here is great for growing all my orchids.

What do you like about living at Athertyn?

Mia: It's convenient and peaceful, and there's so much to do here, too. I'm on the landscape committee and we're working on a community cutting garden. Frank and I are both in book clubs. And in the afternoons, I'm at the pool with the Noodlers. We call ourselves that because we exercise with pool noodles as we swim. We're always moving and so are our mouths! When a new person comes, we just say "grab a noodle and join us!"

What would you say to someone considering Athertyn?

Mia: Do it! It's close to everything and walking to the Freedom playground with the grandkids is easy. And the people here are wonderful. There's a good variety: world travelers and so many interesting people. When Frank had a recent health setback, the outpouring of caring from our neighbors was wonderful. We received cards, texts, meals — but most of all — friendship.
